

## Three new directors named to ASBPA board

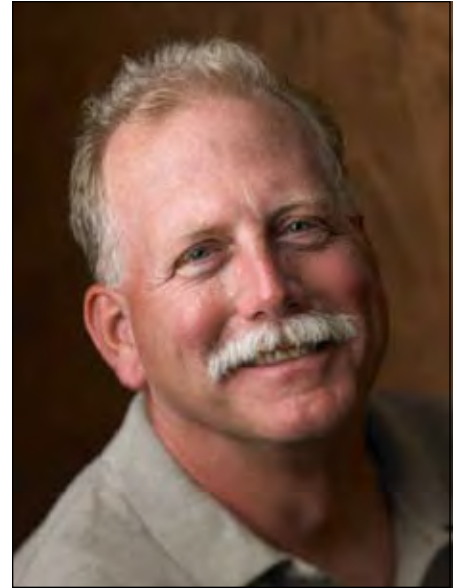

**B**arry Holliday is executive director of the Dredging Contractors of America (DCA), a nonprofit organization representing the nation's dredging and marine construction contractors. Holliday previously served for over 33 years as a civilian with the U.S. Army Corps of Engineers, retiring in 2006 as the Navigation Program Manager for the entire Corps command. Holliday serves on the board of the Western Dredging Association, the National Waterways Conference and the Marine Cabotage Task Force.

"Ensuring a consistent dredging program for coastal storm protection and beach nourishment is one of my goals, and I look forward to working with ASBPA and serving on the Board in this effort." Holliday stated. ❖

**A** lawyer at Kilpatrick Stockton LLP, Todd Roessler has extensive experience related to coastal and environmental issues. With respect to coastal law, his practice is primarily related to beach erosion and sand management issues. Before attending law school, he earned a masters degree in marine sciences at the University of North Carolina at Chapel Hill, where his thesis related to the effects of a federal navigation project on nearshore processes on an adjacent barrier island.

"I look forward to serving on the board of ASPBA and working to preserve our most important natural resource — the nation's coast and beaches," said Roessler. ❖

**D**r. Lee Weishar has more than 30 years experience in the fields of oceanography, coastal engineering, sediment transport, ecological restoration, environmental impact assessment, and project/program management. He has been with the Woods Hole Group since 1989, where he serves as a senior scientist. Previously, he was employed by the USACE Waterways Experiment Station (now ERDC). He specializes in coastal engineering and wetland/marsh restoration and the integration of biological, ecological, and hydraulic data into wetland restoration designs.

"I have admired the boards' dedication, hard work, and forward thinking in charting ASBPA's course. I am excited at my selection to the board and look forward to contributing to ASBPA's future." Weishar stated. ❖
